Air Quality Forecast for the UK
Issued by the Met Office

Today: A mixture of light easterly winds along with some warm temperatures will allow for areas of Moderate air pollution to build-up across parts of southern England. Low levels are expected elsewhere.

Tomorrow: Spells of heavy rain, along with a change to more westerly winds through the day, will help to keep air pollution levels Low across the UK on Monday.

Outlook: A changeable period is expected, with further spells of rain and showers, resulting in air pollution levels remaining Low across the UK.
